Did you work with Johanna Miller on this here in R8? Don't want to duplicate R8 review if it's already happened.

Subject: background material on Gold King mine & watershed

We put together some material that may be useful to put up on the EPA website – it covers the history of the Gold King mine and the watershed. This is taken almost entirely from information available in a few spots on the R8 website. If the R8 folks (Lisa?) could take a look, and edit it any way you want, then I can get it to the web team at HQ.
